

SPOT PRO 400 V

STEEL DENT PULLING EQUIPMENT

Ref: 021754

400V steel dent puller with 3800A output current, ideal for all steel straightening and dent pulling jobs. Quite efficient thanks to 2 guns, one automatic and one with trigger, and its user friendly control panel.

SIMPLE TO USE

Only 2 parameters to select

- the output power level (amongst 11 levels)
 - the tool which is used (amongst 7 tools)
- => no need to select the welding current and welding time.

Manual triggering

The welding occurs when pressing the trigger when the tool is in contact with the part to straighten.

Automatic triggering

The welding is triggered automatically by a simple contact between the tool and the part to straighten.

Spotter Box Pro
ref : 050075

READY TO USE
